

AfHB projector

Model Epson EB S04; serial number: xx; acquired February 2016 for the Happy course.

Accessories:

1. power lead, 2. hdmi lead, 3. svga lead, 4. remote control, 5. usb stick (32Gb), 6. Quickstart guide

Operation:

ensure projector is in economy mode (then life of bulb is 10,000 hrs). [how to do this]

Keystone adjustment is automatic (!)

The front leg drops down with the projector horizontal and the clip pressed

USB port allows playing of .jpg and .avi files (but not ppt, mvi, mp4)

There is a pointer facility (using the remote)

WiFi access is possible

Full instructions have been printed out – for the pdf see our website:

You may also want: power extension lead, laptop
